welcome

Style and quality has never been so affordable.

Our Mission

At Veradek we strive to meet the needs that matter most to our customers – Design, Quality, Sustainability, Service and Price. These five pillars guide how we conduct our business and how we bring our products to market.

From our commitment to integrating all-weather performance and quality into leading designs, to our dedication to using recycled materials, the five pillars are at the core of our product line. At Veradek, we provide the complete package and sell it at the most competitive price in the industry.

The following pages showcase our most popular styles and most exciting new designs for the upcoming year. We hope they will inspire you as they have inspired us.

- The Veradek Team

The Veradek Advantage

VERADEK OUTDOOR / COLLECTION

Sustainability

At Veradek, our business is outdoor living, so it's no surprise that we take great pride in our commitment to the environment. Our Pure Series and Metallic Series planters are made from over 70% recycled materials and are fully recyclable at the end of their useful lives.

Our Metallic Series planters are finished using a distinctive powder coating process ensuring zero volatile organic compounds (VOC's) are emitted and all overspray is recovered and reused.

From manufacturing, to finishing, to shipping, to end use, we do our part to limit our impact on the environment.

Customer Service

From our point of sale programs to our drop ship services, we at Veradek take pride in providing you the support you need when you need it.

Point of Sale

Veradek works with a number of retailers to develop point of sale display programs to ensure that our planters receive the attention they deserve. Ask your sales representative how you can take advantage of one of Veradek's point of sale programs.

Drop Ship Services

Veradek also provides drop ship services for online retailers. Whether you are a traditional or online retailer, dealer or designer, Veradek provides prompt no-hassle services.

Quality

Pure Series

Veradek's Pure Series is made from a patented plastic-resin composite, designed to withstand the elements. Pure Series planters are flexible, impact resistant and specially treated with UV inhibitors to provide fade resistance. With a Veradek product you can rest assured that you are getting the perfect balance of design and durability.

Marquis Series

Molded from a high grade plastic (polyethylene) through a process known as roto-molding, all Veradek Marquis Series planters are designed to be left outdoors all year long – winter or summer. Marquis Series planters are flexible, impact resistant, sturdy yet lightweight and specifically treated with UV inhibitors to minimize fading. In addition, all Veradek Marquis Collection planters are equipped with a 10 Year limited warranty against weather related splitting and cracking.

Metallic Series

Veradek Metallic Series planters are not only artfully designed, but are built with a quality that you can see and feel. All Veradek Metallic Series planters are constructed from a thick-gauge aluminum base that will never rust. Further, all Metallic Series planters are protected by a strong, scratch-resistant powder coat, ensuring that they will stand the test of time in both commercial and residential settings. Veradek Metallic Series planters are built to last.

Veradek and More

Each of our lines offer a number of distinct features and add-ons that will allow you to get the most out of your planter. From double walled construction to custom fabrication options to sleek modular designs, Veradek Planters offer uncompromised versatility.

Marquis Series

Double Walled - All Marquis Series planters are double walled for optimal root insulation.

Hand Painted - All Marquis Series planters have a hand applied finish which provides an authentic stone look.

10 Year Warranty - Marquis Series planters are built to last all seasons and are equipped with a 10 year warranty against splitting and cracking.

Pure Series

Insert Shelf - Selected Pure Series planters are equipped with an insert shelf to allow for more convenient planting.

Fade Resistance - All Pure Series planters are manufactured with UV inhibitors to prevent fading in the sun.

Superior Durability - Made from recycled plastic inputs, Pure Series planters are built to last all seasons and are highly shock resistant.

Metallic Series

Custom Designs - Have a space that our current line doesn't fit? At Veradek, we staff a team of in-house designers for larger projects. Feel free to contact us regarding custom designs and speak to one of our design professionals.

Modular Designs - With Metallic Series planters, you are no longer restricted to just one look. Metallic Series planters are modular and can be stacked or grouped, to create new looks for new spaces.
